TECHNOLOGY AREA TEMPLATE

DEFINITION

Name	**Dissemination**
Description	State agencies collect, compile, process, store, and disseminate many kinds of data about persons, households, companies, establishments, and other organizations. Statutes and regulations govern these activities which are designed to limit invasion of privacy and protect the confidentiality of the data.
Rationale	Provides information about general privacy and confidentiality protection guidelines for State government and guidelines that are specific to individual agencies and contractors.
Benefits	• Builds trust between public and government • Improves efficiencies by establishing protocols for dissemination.
